## December Highlights

In December, HVPE renewed its existing \$500 million multi-currency credit facility with Lloyds Bank plc and Credit Suisse AG. The lenders will provide an equal commitment of \$250 million each. The renewal, while retaining similar convenants to the prior facility, benefits from improved financial terms and extends five years to December 2022. Additionally, \$61.0 million of proceeds were received by HVPE in December, surpassing November's \$55.7 million to become the highest monthly total in 2017. This included proceeds from the sale of Censeo Health – HVPE's 12th largest portfolio company at 31 July – to New Mountain Partners.

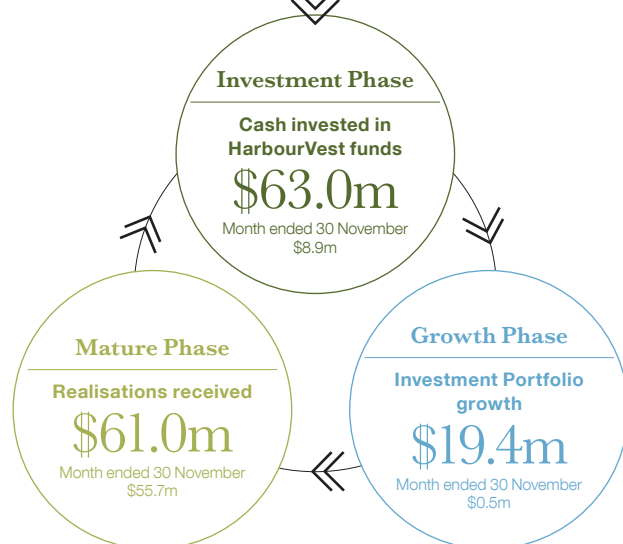

## The Private Equity Cycle

HVPE invests in and alongside HarbourVest-managed funds which focus on primary fund commitments, secondary investments and direct co-investments in operating companies. These in turn drive a steady pace of direct and indirect investment into private company opportunities. These investments develop and grow over a period of several years, before being realised. Proceeds from these realisations then provide the fuel for new commitments and the lifecycle continues.

Consistent with HVPE's investment objective, the investment manager strives to manage risk through diversification within the portfolio.

**Notes:** The diversification by net asset value analysis is based on the fair value of the underlying investments, as estimated by the investment manager. Diversification by stage, phase, and geography is based on the estimated net asset value of partnership investments within HVPE's fund-of-funds and company investments within HVPE's co-investment funds. Industry diversification is based on the reported value of the underlying company investments for both fund-of-funds and co-investment funds. Some of the funds held in HVPE have not been fully invested. The composition of investments by phase, stage, geography, strategy, and industry may change as additional investments are made and existing investments are realised. By phase, mature includes vintage years pre-2007, growth includes vintage years 2008 to 2012, and investment includes vintage years 2013 to 2017.
