September Highlights

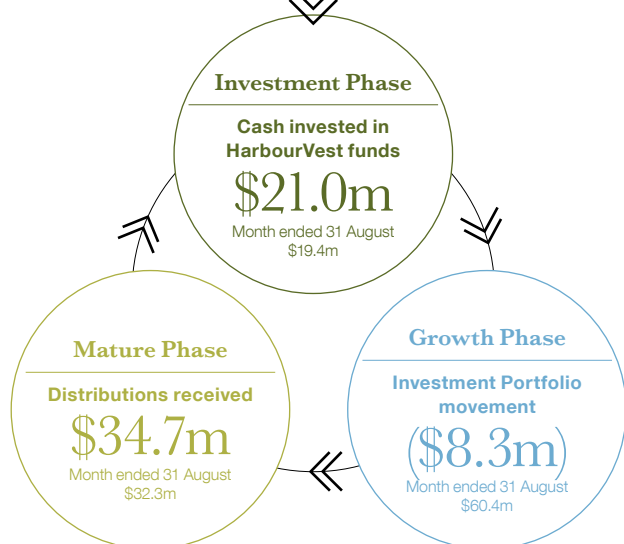

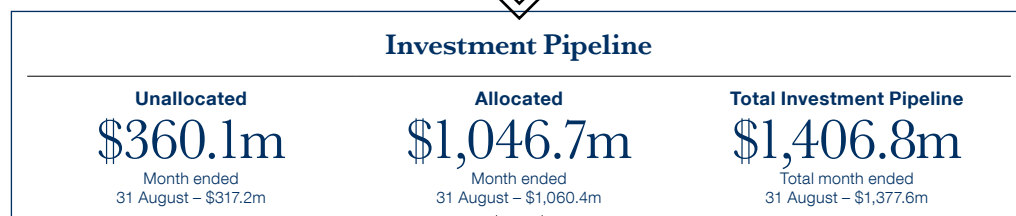

In September, HVPE committed a further \$50.0 million to HarbourVest 2018 Global Fund, a multi-strategy fund split across buyout, venture, and special situations. This brings the total commitment to this fund to \$70.0 million.

On 18 October HVPE announced its Semi-Annual Results to 31 July 2018. Financial highlights for the six month period include an increase in NAV per share of 6.8%, realised uplifts of 53%, and net investment over the period (capital calls exceeded distributions). The Private Equity Cycle

HVPE invests in and alongside HarbourVest-managed funds which focus on primary fund commitments, secondary investments and direct co-investments in operating companies. These in turn drive a steady pace of direct and indirect investment into private company opportunities. These investments develop and grow over a period of several years, before being exited. Proceeds from these distributions then provide the fuel for new commitments and the lifecycle continues.

Managing HVPE

Credit facility

If in future investments exceed distributions for a sustained period, it is important that HVPE is able to access funding as required to meet any shortfall. In addition to a cash balance of \$156.6 million, the Company has a credit facility of \$500.0 million, which is currently undrawn. The credit facility was

extended in early December 2017 and now expires in December 2022.

Diversification at 30 September 2018

Consistent with HVPE's investment objective, the investment manager strives to manage risk through diversification within the portfolio.

Notes: The diversification by net asset value analysis is based on the fair value of the underlying investments, as estimated by the investment manager. Diversification by stage, phase, and geography is based on the estimated net asset value of partnership investments within HVPE's fund-of-funds and company investments within HVPE's co-investment funds. Industry diversification is based on the reported value of the underlying company investments for both fund-of-funds and co-investment funds. Some of the funds held in HVPE have not been fully invested. The composition of investments by phase, stage, geography, strategy, and industry may change as additional investments are made and existing investments are realised. By phase, mature includes vintage years pre-2008, growth includes vintage years 2009 to 2013, and investment includes vintage years 2014 to 2018.
