Building Long-term Wealth by Investing in Private Companies

What is HarbourVest Global Private Equity Limited?

HarbourVest Global Private Equity Limited ("HVPE" or the "Company") is a London listed, FTSE 250 private equity investment company with assets of \$2.1 billion (HVPE's functional currency is the US dollar) and a market capitalisation of approximately £1.4 billion (tickers: £ HVPE | \$ HVPD). HVPE invests in private companies and portfolios of private companies through funds managed by HarbourVest Partners, an innovative global private markets asset manager with more than 35 years of experience.

HVPE is designed to offer shareholders long-term capital appreciation by investing in a private markets portfolio diversified by geography, strategy, stage of investment, vintage year, and sector. By following a consistent and proven investment strategy, HVPE has delivered steady and robust NAV growth and has outperformed the public markets since inception, as measured by the FTSE All-World Total Return (TR) index.

Why Invest

Holding shares in HVPE provides investors with a well-managed, ready-made global private equity programme and gives part-ownership of a diversified portfolio of underlying private companies*, spanning investment stages from early venture to large-cap buyouts. Many of these companies have the potential to become tomorrow's household names.

September Highlights

In September, HVPE committed a total of \$100.0 million to two HarbourVest-managed funds. This included additional commitments of \$75.0 million to Fund XI Venture, a US-focused venture fund (now \$190.0 million in total) and \$25.0 million to Fund XI Micro Buyout, a US-focused micro buyout fund (now \$65.0 million in total). During the month, proceeds were distributed to HVPE from the IPO of software solutions provider, TeamViewer (HVPE's 53rd largest underlying company at 31 January 2019); over the entire holding period this company added \$0.17 to HVPE's NAV per share.

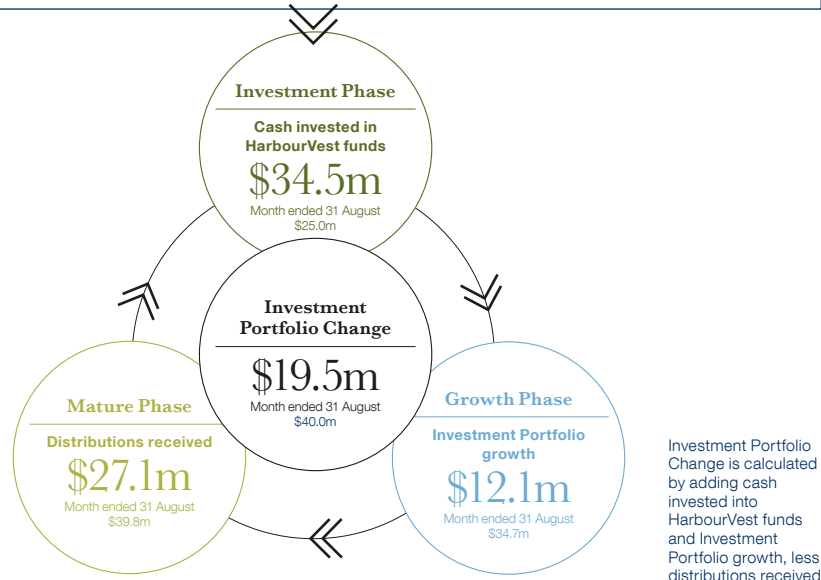

The Private Equity Cycle

HVPE invests in and alongside HarbourVest-managed funds which focus on primary fund commitments, secondary investments and direct co-investments in operating companies. These in turn drive a steady pace of direct and indirect investment into private company opportunities. These investments develop and grow over a period of several years, before being exited. Proceeds from these distributions then provide the fuel for new commitments and the lifecycle continues.

Managing HVPE

Credit facility

If in future investments exceed distributions for a sustained period, it is important that HVPE is able to access funding as required to meet any shortfall. In addition to a cash balance of \$94.2 million, the Company had an undrawn credit facility of \$600.0 million in September.

Investment Pipeline and commitment ratios

The Board and Investment Manager make reference to three key ratios when assessing the Company's commitment levels, as shown here.

Total Commitment Ratio at 30 September 2019

(Total exposure to private markets investments as a percentage of NAV)

Investment Portfolio + Investment Pipeline	\$3,669
Divided by the NAV	\$2,055

Cash + Available Credit Facility (\$) + Current Year Estimated Realisations (\$)	\$1,259
Divided by the Next Three Years' Estimated Investments	\$1,615
(12 month range: 72% to 81%)	78%

Commitment Coverage Ratio at 30 September 2019

(Short-term liquidity as a percentage of total Investment Pipeline)

Cash + Available Credit Facility	\$694
Divided by the Investment Pipeline	\$1,714
(12 month range: 41% to 51%)	40%

Diversification at 30 September 2019

Consistent with HVPE's investment objective, the Investment Manager strives to manage risk through diversification within the portfolio.

Notes: The diversification by net asset value analysis is based on the fair value of the underlying investments, as estimated by the investment manager. Diversification by stage, phase, and geography is based on the estimated net asset value of partnership investments within HVPE's fund-of-funds and company investments within HVPE's co-investment funds. Industry diversification is based on the reported value of the underlying company investments for both fund-of-funds and co-investment funds. Some of the funds held in HVPE have not been fully invested. The composition of investments by phase, stage, geography, strategy, and industry may change as additional investments are made and existing investments are realised. By phase, mature includes vintage years pre-2010, growth includes vintage years 2010 to 2014, and investment includes vintage years 2015 to 2019.

Performance as at 30 September 2019

	1 year	3 years	5 years	10 years*	Since Inception (2007)
NAV per share (\$)	12.3%	45.4%	69.8%	225.7%	157.3%

FTSE All-World TR (\$)	1.9%	34.2%	42.2%	153.3%	74.4%

HVPE introduced an additional US dollar share price on 10 December 2018; from this date onwards, the actual US dollar share price, as reported by the London Stock Exchange, has been used. Prior to this date, the US dollar share price had been converted from the sterling share price at the prevailing exchange rate.

*It is important to note that the exceptionally high 10-year share price returns this month (USD and GBP) are a result of the starting point for the 10-year period, which currently captures the trough that HVPE's share price traded at during the financial crisis in 2009.

Valuation Methodology: HVPE carries its investments at fair value in accordance with US generally-accepted accounting principles. HVPE's Investment Manager uses the best information it has available to estimate fair value. Fair value for private equity assets is based on the most recent financial information provided by the Investment Manager, adjusted for known investment operating expenses and subsequent transactions, including investments, realisations, changes in foreign currency exchange rates, and changes in value of public securities. Valuation adjustments are made for known significant events, if any, that affect the fair value of the investments. The 30 September 2019 estimated NAV is based on final investment values at 30 June 2019 for 100% of the HarbourVest funds in the portfolio. This includes 100% final 30 June 2019 valuations for company investments within the direct co-investment portfolio and 100% of partnership valuations within the fund-of-funds. Note: 10% of the investment portfolio is represented by public companies and these have been updated to reflect 30 September 2019 public market prices. Consistent with previous estimated NAV reports, valuations are also adjusted for foreign exchange movements, cashflows, and any known material events to 30 September 2019.
