## January Highlight

On 4 January, HVPE announced the commencement of a new \$600.0 million multi-currency credit facility with Credit Suisse AG and Mitsubishi UFJ Trust Banking Corporation. The lenders will provide an equal commitment of \$300.0 million each. The enlarged Facility has improved terms and is a five-year evergreen structure with an initial two-year no-notice provision, giving a guaranteed initial term of seven years to January 2026. All borrowings are subject to compliance with covenants. The press release with further detail on the financial terms is available online at [www.hvpe.com](http://www.hvpe.com).

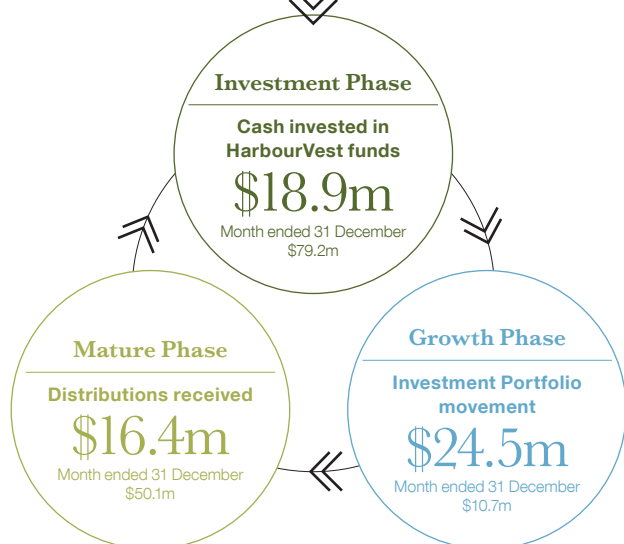

## The Private Equity Cycle

HVPE invests in and alongside HarbourVest-managed funds which focus on primary fund commitments, secondary investments and direct co-investments in operating companies. These in turn drive a steady pace of direct and indirect investment into private company opportunities. These investments develop and grow over a period of several years, before being exited. Proceeds from these distributions then provide the fuel for new commitments and the lifecycle continues.

**Valuation Methodology:** HVPE carries its investments at fair value in accordance with US generally-accepted accounting principles. HVPE's Investment Manager uses the best information it has available to estimate fair value. Fair value for private equity assets is based on the most recent financial information provided by the Investment Manager, adjusted for known investment operating expenses and subsequent transactions, including investments, realisations, changes in foreign currency exchange rates, and changes in value of public securities. Valuation adjustments are made for known significant events, if any, that affect the fair value of the investments. The 31 January 2019 estimated NAV incorporates 100% of final HarbourVest fund investment values as at 30 September 2018 for company investments within HVPE's co-investment funds and partnerships within HVPE's fund-of-funds. However, in line with normal practice at calendar year end, the portfolio was further updated to reflect the Investment Manager's estimated 31 December 2018 valuation changes. Consistent with previous estimated NAV reports, valuations are also adjusted for foreign exchange movements, cashflows, and any known material events to 31 January 2019.
