30 September 2022

## September Comment

The estimated NAV per share at 30 September 2022 of \$47.15 (£42.21) represents a decrease of 1.3% in US dollar terms over the previous month. This was driven by valuation declines largely from the public company holdings in the portfolio, as well as unfavourable FX due to continued strengthening of the US dollar, partially offset by a positive contribution from the Company's recent share buybacks. Quarter-end portfolio cash flows were well-balanced, with HVPE receiving \$90 million of cash distributions and funding \$91 million of calls during the month.

## The Private Equity Cycle

HVPE invests in and alongside HarbourVest-managed funds which focus on primary fund commitments, secondary investments and direct co-investments in operating companies. These in turn drive a steady pace of direct and indirect investment into private company opportunities. These investments develop and grow over a period of several years, before being exited. Proceeds from these distributions then provide the fuel for new commitments and the lifecycle continues.

## Diversification at 30 September 2022

Consistent with HVPE's investment objective, the Investment Manager strives to manage risk through diversification within the portfolio.

\* InfRA incorporates infrastructure and real assets.

**Notes:** The diversification by net asset value analysis is based on the fair value of the underlying investments, as estimated by the investment manager. Diversification by stage, phase, currency and geography is based on the estimated net asset value of partnership investments within HVPE's fund of funds and company investments within HVPE's co-investment funds. Industry diversification is based on the reported value of the underlying company investments for both fund of funds and co-investment funds. Some of the funds held in HVPE have not been fully invested. The composition of investments by phase, stage, geography, strategy, and industry may change as additional investments are made and existing investments are realised. By phase, mature includes vintage years pre-2013, growth includes vintage years 2013 to 2017, and investment includes vintage years 2018 to 2022.
